FOR IMMEDIATE RELEASE

**Maghreb-American Health Foundation concludes
successful health exchange mission to Morocco**

Philadelphia, PA (September 23, 2013) - The ***Maghreb-American Health Foundation, Inc.*** is announcing the successful completion of its health exchange mission to Morocco.

The goals of this first of its kind mission to the Kingdom of Morocco was to (i) introduce the ***Maghreb-American Health Foundation*** and establish strong partnership ties with health officials and local organizations working with underprivileged communities in Morocco, (ii) to organize a series of workshops and partnership events between US doctors and Moroccan doctors, (iii) to examine and treat local patients, (iv) assess the needs of local communities and plan for future actions.

The ***Maghreb-American Health Foundation*** met with officials from the ministry of health and agreed to establish a partnership protocol. The foundation also met with several local health associations and facilitated exchange with U.S neurosurgeons for future collaborative work. The Foundation organized a seminar on neurosurgery attended by more than 70 physicians and organized visits to several clinics to examine and treat young patients with neurological diseases.

This mission took place in Casablanca and Marrakesh, Morocco from September 18-22, 2013.

About the Maghreb-American Health Foundation, inc.

Founded in 2012 the Maghreb-American Health Foundation is a nonprofit organization whose mission is to lead collaborative efforts among the countries of the Maghreb region and other partners in the United States, to promote equity in health, and to improve the quality of the lives of the people of the Maghreb.
